

Opportunity for CBOs:

Promote Pop-up and Mobile COVID-19 Testing in LA County

Pop-up and mobile testing sites are temporary COVID-19 testing sites where people can have a test administered in their neighborhood. These [testing sites are opening in neighborhoods across LA County](#). Here are ways CBOs can partner to get the word out to local communities:

- 1. Promote testing sites in your neighborhood** through social media, emails, texting, calls, etc. [Click to access ready-to-share graphics.](#)
- 2. Email the Testing Contractor** about conducting joint outreach to local residents. This could include joining with Testing Contractor staff to go door-to-door in nearby neighborhoods or at local businesses.
- 3. Get the word out wherever you are doing in-person outreach.** Be sure to wear a mask and practice physical distancing and follow [CDC guidelines for outreach.](#)

New locations for the coming week will be announced on **Fridays**.
